Introduction To MommyShibaInu Token

Mommy Shiba Inu is all about spreading the crypto love. Seeing the rise of the blockchain and the lack of specialized platform for meme token, we thought about making this community-centric meme hub, in a totally decentralized fashion. The team puts community first with a competitive rewards plan for long term holders. **Mommy Shiba Inu** is also committed to providing its community with transparency and fairness. We prioritize our holders but we never forget that this project was born out of a genuine social purpose. Being part of the **Baby Shiba Inu** community is rewarding in many ways!

WHY BINANCE SMART CHAIN?

Most DeFi applications involve myriads of transactions, which incur transaction fees at every step. For this reason, blockchain fees are an important factor to consider before choosing a blockchain protocol. Currently, the most popular blockchain – Ethereum, has recorded fees over \$200 for a single transaction. This allows for smaller blockchains such as Binance Smart Chain to take advantage and charge between \$0.10 — \$0.50 for the same services.

On top of having lower fees, Binance Smart Chain was specifically designed to enhance scalability in blockchains with high throughput for easy implementation of smart contracts to build scalable decentralized applications.

OUR LONG-TERM GOAL

Our token – MommyShibaInu, is a novel token with social conscience, built by the dog loving team and fully distributed within the crypto community. Our long term goal is to establish a NFT platform for mobile phone devices that will allow the creation and sale of NFTs. As an incentive, all holders of the MommyShibaInu token will continue receiving rewards via the token sale, and through using the platform itself.
